

Key Investor Information

This document provides key investor information about this fund ("Fund"). It is not marketing material. The information is required by law to help investors understand the nature and the risks of investing in this Fund. Investors are advised to read it so to make an informed decision about whether to invest.

MWM SICAV - Patrimonial SRI Fund a Subfund of MWM SICAV

Share Class

ISIN

Management Company

A

LU0927887843

MultiConcept Fund Management S.A., Luxembourg

Objectives and investment policy

This Mixed Fund is actively managed without reference to any benchmark aiming to achieve capital appreciation over the medium to long term by investing in a diversified portfolio of primarily equity and fixed income securities. The Fund promotes environmental, social and governance (ESG) characteristics (within the meaning of Article 8 of Regulation (EU) 2019/2088) through a combination of different portfolio management techniques. Details are available in the prospectus and the ESG website disclosure of the fund. It mainly invests, either directly or indirectly via shares or units of Target Funds (incl. ETFs - Exchange Traded Funds), in fixed income instruments (min 40% of net assets) such as, but not limited to, money market instruments, government and corporate bonds, inflation linked bonds and floating rate notes as well as in global equities and equity-type securities (up to 60%). The Fund invests without being limited to a

specific currency, geographic scope, industrial sector or rating of the issuer; a proportion of the Fund's assets may be invested in Emerging Markets and/or non-investment grade securities. No more than 10% of the Fund's assets will be invested in other UCIs/UCITS. The Funds is suitable for investors with a three to five year investment horizon. In order to reach its objective, the Fund can use structured products and derivative instruments to protect against movements in currencies and security prices and for investment purposes. The investor can buy or sell shares on a daily basis (Luxembourg bank business days). This Share Class does not make regular distributions. The Fund shall bear the costs of standard charges incurred by the Fund through securities transactions in relation to the portfolio. These charges are not included in the 'Charges' section of this document.

Risk and reward profile

Risk profile

The Fund's risk and reward profile shows the variations in value an investment in this Fund would have undergone over the past five years, whereby simulated performance data is used in the case of missing history. The Fund's risk rating may change in the future. Please note, higher possible gains generally also mean higher possible losses. The lowest risk category does not mean that the Fund is risk free.

Why is the Fund in the specific category?

The risk level of an investment in different asset classes is mainly driven by its asset mix (e.g. equity, bonds and others), the investment markets and economic sectors, as well as allocation to currencies. This Fund has generally a diversified exposure to asset classes with lower as well as higher risks. The use of derivatives may lead to leverage and to an amplified reaction to market movements. The particularly active management of the Fund may lead to frequent changes of the Fund's risk profile.

Are there any other particular risks?

The Fund's risk and reward profile does not reflect the risk inherent in future circumstances that differ from what the Fund has experienced in the recent past. This includes the following events which are rare but can have a large impact.

- Credit risk: Issuers of assets held by the Fund may not pay income or repay capital when due. The Fund's investments have considerable credit risk.
- Liquidity risk: Assets cannot necessarily be sold at limited cost in an adequately short timeframe. The Fund's investments may be prone to limited liquidity. The Fund will endeavor to mitigate this risk by various measures.
- Counterparty risk: Bankruptcy or insolvency of the Fund's derivative counterparties may lead to payment or delivery default.
- Event risk: In the case a trigger event occurs contingent capital is converted into equity or written down and thus may lose substantially in value.
- Operational risk: Deficient processes, technical failures or catastrophic events may cause losses.
- Political and Legal risks: Investments are exposed to changes of rules and standards applied by a specific country. This includes restrictions on currency convertibility, the imposing of taxes or controls on transactions, the limitations of property rights or other legal risks. Investments in less developed financial markets may expose the Fund to increased operational, legal and political risk.
- Sustainability risks: Sustainability risks are environmental, social or governance events or conditions that can have a material negative effect on the return, depending on the relevant sector, industry and company exposure.

Charges

One-off charges taken before or after the investment	
Entry charge	Not applicable
Exit charge	Not applicable
Switch charge	Not applicable
This is the maximum amount that may be deducted from the investor's money before it is invested or before the proceeds of the investment are paid out.	
Charges debited to the Fund over a year	
Ongoing charge	1.46%
Charges debited to the Fund under certain specific conditions	
Performance fee	10% of any excess return the NAV achieves over the hurdle rate (+4%)

Charges debited to investors are used to pay for the cost of running the Fund, including marketing and distribution costs. These charges reduce the potential growth of the investment.

The **entry** and **exit charges** shown are the maximum figures that can be charged to the investor. Investors may obtain the fees effectively applied from their individual financial adviser or distributor.

The **ongoing charges** figure is based on last year's expenses for the year ending December 31, 2021. This figure may vary from year to year. It excludes performance fees and portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling shares/units in another collective investment undertaking.

The Investment Manager is entitled to a **performance fee** if the net asset value (NAV) of the Fund exceeds a predefined reference value, subject to additional conditions set forth in the prospectus. A performance fee may be charged at the end of the relevant Reference Period (1 calendar year) and paid in arrears within the first month from the beginning of the next Reference Period, based

on the NAV calculation. If shares are redeemed during the reference period, the amount of the performance fee included in the Net Asset Value per Share will be due and owed (i.e. crystallized) for these redeemed Shares at the time

of redemption. For further information about charges, investors should refer to chapter 9 of the Fund's prospectus, which is available at <https://www.credit-suisse.com/microsites/multiconcept/en.html>.

Past performance

Performance disclaimer

Please note that performance in the past is not a reliable indicator of future results.
